THE TILES: CONCRETO

A collection of mottled and dusky hues inspired by weathered cement, the Concreto series forms a strong foundation for any aesthetic.

I COCCI

Inspired by the traditional Italian flooring of the early 20th century, the porcelain I COCCI series of solid and decorative tiles emulates the fragments, flecks and flakes of marble bound by cement.

FOSSIL

Drawing inspiration from time-worn fossils and crushed seashells, the porcelain Fossil series is made up of four aged colourways that create a subtle, worn look and add character and warmth.
